About AV Impact

WHO WE ARE

AV Impact is a premier Audio-Visual solutions and system integration partner. We specialize in transforming spaces through state-of-the-art visual communication, audio reinforcement, and smart automation systems.

COMPANY OVERVIEW

AV Impact specializes in designing, deploying, integrating, and supporting modern Audio-Visual solutions tailored to corporate, educational, government, healthcare, hospitality, and event environments. Our focus is on enabling seamless collaboration, enhancing communication, and creating technology-enabled spaces that improve user experience and operational efficiency. Through a consultation-first approach, we ensure every solution is aligned with our clients' objectives, technical requirements, and budget.

OUR VISION

To empower organizations to connect, collaborate, and succeed through innovative, state-of-the-art visual and sound technologies.

OUR MISSION

To deliver reliable, high-performance, and user-centric AV systems through expert consultation, precision design, and professional support.

CORE VALUES

- ✓ AV Solutions Focus
- ✓ Expert Design
- ✓ Reliable Calibrations
- ✓ System Integration
- ✓ Quality Support
- ✓ Client Satisfaction

Core Audio -Visual Solutions

SMART MEETING ROOMS

Interactive display units, native room schedulers, and wireless screensharing tools to streamline daily team updates.

BOARDROOM SOLUTIONS

High-end corporate settings featuring custom automated controls, smart lighting, and acoustically optimized spaces.

VIDEO CONFERENCING SOLUTIONS

Native Teams, Zoom, and Webex systems with auto-tracking PTZ cameras and multi-mic soundbars for seamless hybrid work.

DIGITAL SIGNAGE SOLUTIONS

Enterprise networks of displays and LED video walls for corporate lobby branding, corridors, and high-visibility areas.

AUDITORIUM SOLUTIONS

Massive venues featuring high-lumen laser projectors, array loudspeaker setups, and central stage lighting.

TRAINING ROOM SOLUTIONS

Active whiteboards, audio zone distribution, and dedicated streaming boxes for digital lectures and hybrid learning.

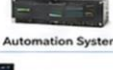

SURVEILLANCE SOLUTIONS

Smart CCTV monitoring, access control, and integrated security systems for enhanced safety, real-time visibility, and reliable protection.

NETWORKING SOLUTIONS

Secure, scalable networking and connectivity solutions for seamless communication and performance.

CATEGORY	PRODUCTS
 DISPLAY SOLUTIONS	 Interactive Flat Panels  LED Video Walls  Commercial Displays  Digital Signage  Video Walls
 AUDIO SOLUTIONS	 Speakers  Amplifiers  DSP Processors  Wireless Microphones  Ceiling Speakers  Soundbars
 VIDEO CONFERENCING	 PTZ Cameras  USB Cameras  Video Bars  Conference Phones  Speakerphones
 CONTROL & AUTOMATION	 Control Processors  Touch Panels  Room Schedulers  Automation Systems
 COLLABORATION SOLUTIONS	 Wireless Presentation Systems  BYOD Solutions  Interactive Whiteboards
 PROJECTION SYSTEMS	 Projectors  Projection Screens  Lens Systems
 SIGNAL MANAGEMENT	 Matrix Switchers  AV-over-IP Encoders/Decoders  Extenders  Splitters
 INFRASTRUCTURE	 AV Racks  Mounts  Cable Management  Network Switches
 RECORDING & STREAMING	 Capture Cards  Streaming Encoders  Lecture Capture Systems
 SECURITY & SURVEILLANCE	 CCTV Cameras  NVRs  Access Control Systems
 UNIFIED COMMUNICATION	 Microsoft Teams Rooms  Zoom Rooms  Meeting Room Solutions
 SMART BUILDING SOLUTIONS	 Smart Classroom Systems  Smart Boardroom Solutions  Digital Signage Networks

Modern Collaboration Environments

REDEFINING CORPORATE CONNECTIVITY THROUGH FRICTIONLESS SYSTEM DESIGN.

Modern businesses require flexible meeting setups that eliminate standard tech delays. Our integrated systems are custom-designed around user experiences, prioritizing ease of access and crystal-clear communication.

FRICTIONLESS VIRTUAL MEETING

Single tap-to-join panels, automatic camera tracking, and intelligent room scheduler synchronization.

PROFESSIONAL ACOUSTIC DESIGN

Multi-array beamforming ceiling microphones and active DSP calibration ensure every participant is heard.

UNIFIED COMMUNICATIONS (UC)

Seamless native integrations of Zoom, Teams, and Webex environments with BYOD wireless screen-sharing.

USER OUTCOMES

"Meetings start on time, remote team members feel fully present, and hardware operates invisibly in the background."

Why Choose AV Impact

END-TO-END AV SOLUTIONS

From initial room analysis and blueprint engineering to full hardware deployment and customized maintenance plans.

EXPERT CONSULTATION & DESIGN

Tailored architectural drawings, signal-flow schematics, and custom acoustics modelling to align with your building layout.

PROFESSIONAL INSTALLATION

Experienced, system-certified integration technicians ensuring pristine rack cabling, proper mounting, and exact sound tuning.

COMPETITIVE PRICING

Strategic partner relationships with global equipment manufacturers, delivering tier-one technologies within your budget parameters.

RELIABLE SUPPORT

Dedicated post-install support SLA contracts, rapid phone/email technical ticketing, and preventive hardware revisions.

LONG-TERM PARTNERSHIP

Regular software updates, customized workspace training modules, and strategic technology planning as your team expands.

DELIVERING RELIABLE SYSTEMS, PRECISE CRAFTSMANSHIP, AND CLEAR CONNECTION ACROSS EVERY DEPLOYMENT.

Industries We Serve

CORPORATE

Enhancing collaboration and productivity through modern workplace technology.

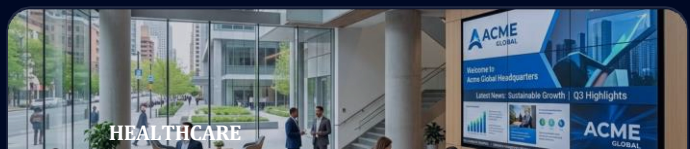

EDUCATION

Creating engaging and interactive learning environments.

GOVERNMENT

Secure, reliable AV infrastructure for critical decision-making environments.

HEALTHCARE

Improving patient outcomes through clear communication and connected care.

DEFENSE

Advanced visualization and secure control systems for mission-critical command centers.

RETAIL

Transforming customer engagement and brand experience through dynamic visual display networks.

RESIDENTIAL

Automated high-fidelity smart environments and immersive home entertainment systems.

Process & Core Commitment

01

CONSULT

Auditing space layout & requirements.

02

DESIGN

CAD cabling grids & signal drawings.

03

INTEGRATE

Certified mounting & DSP settings.

04

TRAIN

Interactive runs for user teams.

05

SUPPORT

SLA maintenance & update plans.

OUR COMMITMENT

At AV Impact, we do not simply supply products. We build complete, highly integrated environments tailored for clear communication and simple, reliable operations.

RELIABLE SOLUTIONS

Built on industry-certified platforms for maximum uptime.

CUSTOMER SATISFACTION

Prioritizing user experience and seamless daily operations.

QUALITY INSTALLATION

Meticulous craftsmanship, cabling standards, and neat racks.

ONGOING SUPPORT

Rapid SLA support keeping critical infrastructures active.

SOLUTIONS POWERED BY

Industry-Leading Technologies

AV Impact designs and deploys custom systems integrated with industry-leading hardware from the world's most trusted manufacturers. By leveraging top-tier product ecosystems, we deliver seamless interoperability, reliable performance, and long-term durability for every environment.
